WOODEN organizers

it's easy, it's fun, it's creative!

Art Alternatives offers 13 wooden organizers you can choose from – each one will not only serve its original purpose of storing, organizing and transporting your art supplies but will also inspire you to add your unique touches, making it really and truly your own. Here are some ideas to get you started...

Start with your favorite Art Alternatives wooden organizer. Jeanine chose the Artist's Supply Chest – an unfinished 16-1/8" x 8" x 5-7/8" wood box constructed of elm hardwood and top quality plywood with elm veneer using finger-joint construction. Light-weight yet sturdy, it features brass hardware and a durable handle. Eight separate, removable storage dividers provide versatile organization. The top storage tray lifts out for easy access to supplies stored below.

Choose a medium and begin your design! With scraps of leather and travel motif wrapping paper, Jeanine began decorating her supply chest. She simply cut the leather and paper to size and glued them on the chest using rubber cement. She also glued leather accents on both front and back hinges and adhered a piece of cork sheet, cut to size, to the bottom of the chest for skid resistance. To finish the piece, and add more intrigue, she adhered different jewelry pieces to the front, sides and handle of the supply chest. The finished supply chest is now a perfect place to store keepsakes, sketches and findings from world travels!

what will
YOU
create?

it's as easy as...

1 Start with your favorite Art Alternatives wooden organizer...

2 Choose a medium – paint, permanent markers, clay, feathers, beads, glitter... the options are limitless!

3 Now, design! Choose an art style or make up your own. Your creativity will guide you.
