

Itty Canvas Holiday Ornaments & Fridge Magnets

Great for gifts or decorations!

2" x 2-3/4" canvas
Perfect for ornaments!

2-1/2" x 3-1/2" canvas*
Ideal for magnetic picture frames
or ornaments!
*same size as wallet photos

2" x 2" canvas
Makes a great small
ornament

To get started:

Choose the appropriate sized canvas for the project you plan to create. Use paint, markers, stickers, beads, ribbon, fabric or any material you would like to decorate your Itty canvas.

Supplies:

- Art Alternatives Itty canvas/easel
- Brushes & Brush washer
- Acrylic Paints
- Mixing Pad or palette
- Utility knife
- Wallet-size photos
- Decorations & Glue

Ornaments

Once you are done decorating, attach a ribbon to the back with glue so you can hang your ornament.

TIPS: To make the ornament double-sided, simply cut out a similar size piece of cardstock or colorful felt, and glue to the back.

Magnets

To create the framed look, place the canvas face down and cut out the center along the edges with a utility knife or blade.

TIPS: If you are painting a thick, textured look on your frame, it is best to paint first and then cut out the center. If you are doing detailed work on the frame instead, cut first and then paint or decorate. Finally, paste a similar sized thick paper on the back and add magnets.
