WOODEN organizers

it's easy, it's fun, it's creative!

Art Alternatives offers 13 wooden organizers you can choose from – each one will not only serve its original purpose of storing, organizing and transporting your art supplies but will also inspire you to add your unique touches, making it really and truly your own. Here are some ideas to get you started...

Start with your favorite Art Alternatives wooden organizer. Corinne chose the Artist's Brush Carrier – a 15-7/8" x 3-1/2" x 2" box constructed of elm hardwood and top grade plywood with elm veneer, that features durable finger-joint construction. It is hand sanded and finished with sturdy brass hinges and latches. The adjustable woven canvas shoulder strap lets you take your brushes with you anywhere you go. Ventilation holes allow brushes to dry and a foam insert provides padding for added protection. Ideal for protecting, storing and transporting extra-long and oversized brushes with ease.

a monster needs 7 eyes, sharp fangs & pink tongue! use the ventilation holes for eyes – perfect!

adhere felt to body using adhesive spray

requisite horns & wings! felt, cut to form, hand sewn & stuffed with fiber fill. adhere to body using hot glue gun

Halloween (or any other ghoulish day) Project

Choose a medium and begin your design! Using bright green felt sheets and her wild imagination, Corinne began transforming the brush carrier into the wild monster she knew it could be! Using a hot glue gun she added the felt wings and horns that she had hand sewn and stuffed with fiber fill. Six eyes found the perfect placement in the ventilation holes and a seventh in the front, for a creepy cyclops look. And what's a monster without sharp fangs and a bright pink tongue?! Thankfully, the hinged top makes for a perfectly ghoulish mouth.
